

Empowering Impact with IEEE & WIE Malaysia

Raja Jamilah Raja Yusof
Dept. SE FCSIT, UM

Between April and June 2026, Assoc. Prof. Dr. Raja Jamilah Raja Yusof actively shaped key IEEE Malaysia and IEEE WIE initiatives as an organizing committee member and participant. The quarter opened on 16 April with the hybrid event "Women in Engineering Across ASEAN: Research, Resilience & Real Conversations," which Dr. Raja Jamilah co-organized and kicked off with welcoming remarks, followed by discussions from regional leaders on AI, sustainable

agriculture, and 5G networks. On 26 April, she helped organize the IEEE WIE Bowling Tournament & Post-Raya Gathering, uniting ten chapters and student branches across Malaysia. The momentum continued with the 1/2026 IEEE Malaysia Chapter Chair Meeting on 9 May, an MMU Student Branch WIE Forum on 25 May, and a mandatory IEEE Malaysia Conference Quality Management Workshop on 28 June in Penang to enforce top publication standards. The next day, the WIE Day 2026 @ IEEE TENSYP was organized and she served as one of the Forum speakers themed "Technology with Purpose", also Cake Cutting Ceremony.
